Customize the Cable Canopy to match your home and patio style with a wide choice of fabric options that suit your preferences and needs.

SPECIFICATIONS

Extended Canopy Dimensions

Motor Bracket & Motor Drum

⚡ Electrical - 120 Volt, 5 Amp

OPERATION PARAMETERS

OPERATION

The Customer understands that excessive and extraordinary weather conditions may cause damage to the product, the product may not perform optimally or may not function at all. Care should be taken at all times by the owner. Always retract the shading product when not in use. TDSC does not take any responsibility for personal, or property damage caused by weather or improper use and handling.

OPERATION PARAMETERS

SUN: Canopies are only intended for sunshade.

RAIN: Canopies are not intended for rain protection

WIND: The maximum wind capacity for canopies is 30 mph. Winds stronger than this, may cause damage to the product. Motorized cable canopies are very wind sensitive, and therefore require extra care to prevent damage.

SNOW: The above mentioned products are not intended to hold snow. Snow or extreme weather of any kind may damage the product. Product should be retracted during all snowfall.

TEMPERATURE: Do not operate the canopy in temperatures below 32 degrees.

HAIL: Hail can damage the canopy. Hail Damage is not covered by warranty.

OBSTRUCTIONS: Objects such as sticks, branches and debris may impede travel and can damage or stain the fabric. Always use caution.

* The above weather conditions are manufacturer recommendations only.
