4 Standard Colors (optional custom powder coating)

Many Fabric Options

DROP ARM FEATURE

Key Features:

- Remote operated (optional)
- Custom Fabric Colors
- Adjustable views

Discover the ease of our awning's drop arm system—raising and lowering with precision. Ideal for windows or doors, it seamlessly blends functionality with contemporary style.

HOOD COVER

Key Features:

- Protects fabric roll
- Heavy gauge aluminium hood
- Custom hardware colors

The hood cover provides robust protection for both fabric and mechanisms, guarding against short-term wear and tear with resilience and efficiency.

CONTROL SOLAR HEAD GAIN

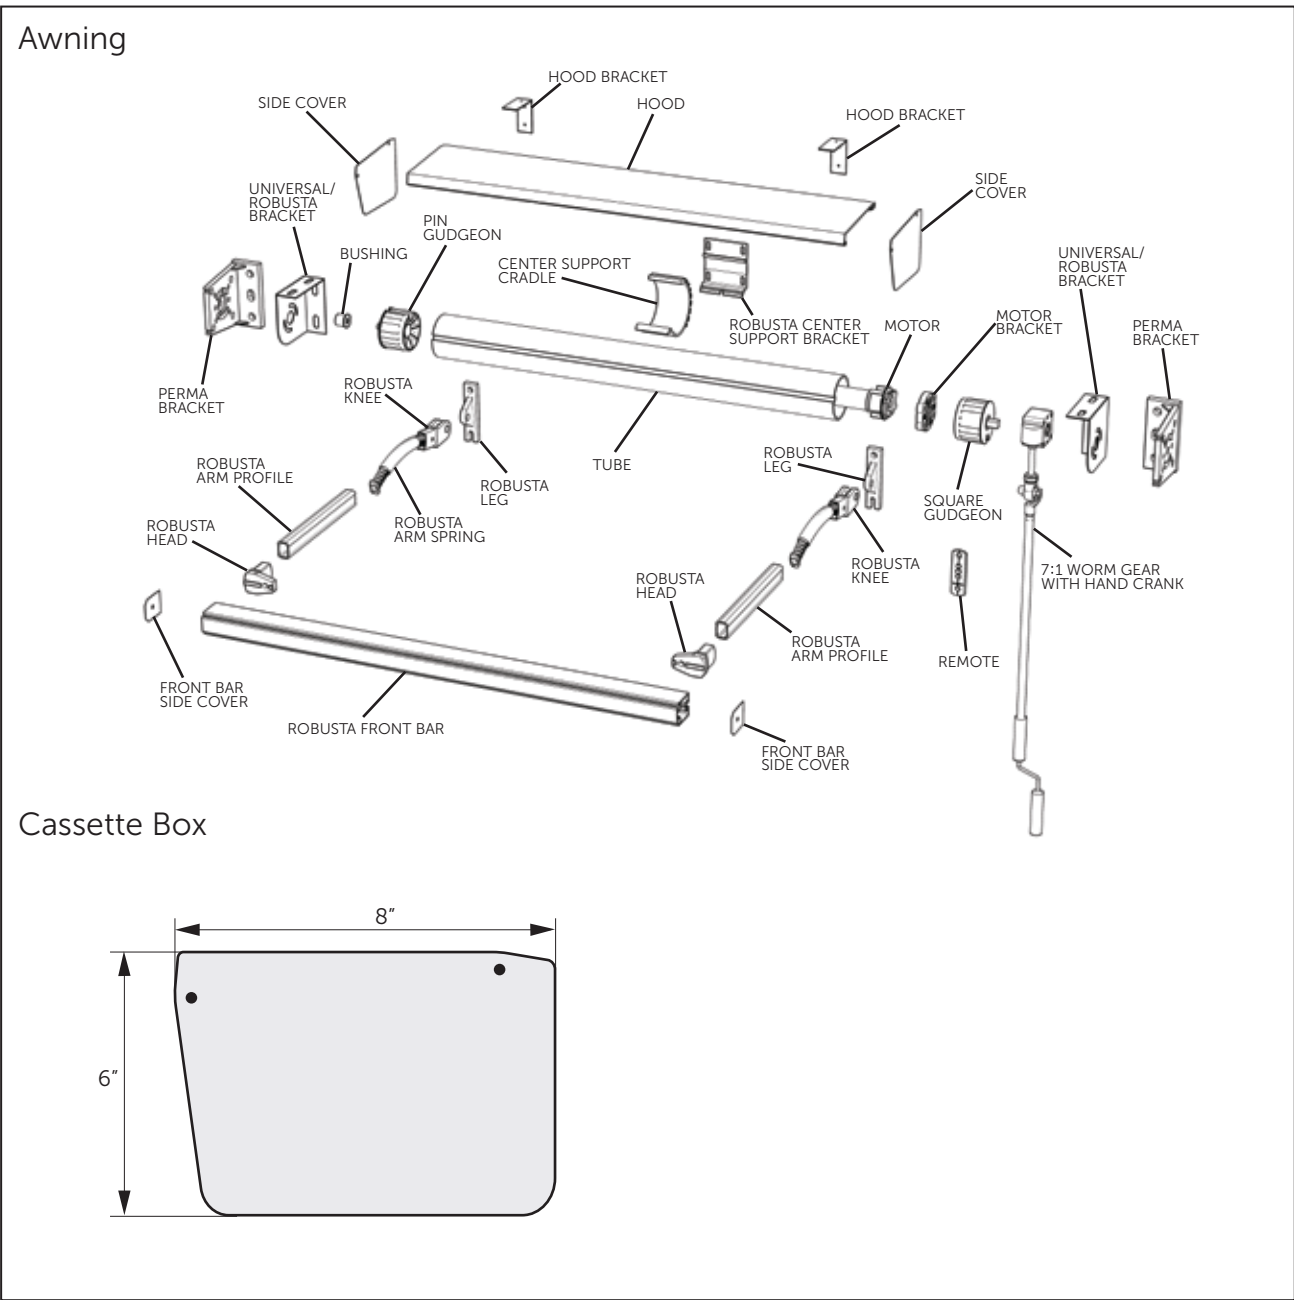

Key Features:

- Save on electric costs in the summer months
- Control solar heat gain throughout the day.

Enhance your energy efficiency by installing drop arm awnings on your windows. Lower them strategically during sunset or sunrise to effortlessly mitigate solar heat gain.
