Louvers span up to 12'
Beam lengths up to 20'

ROTATING LOUVERS

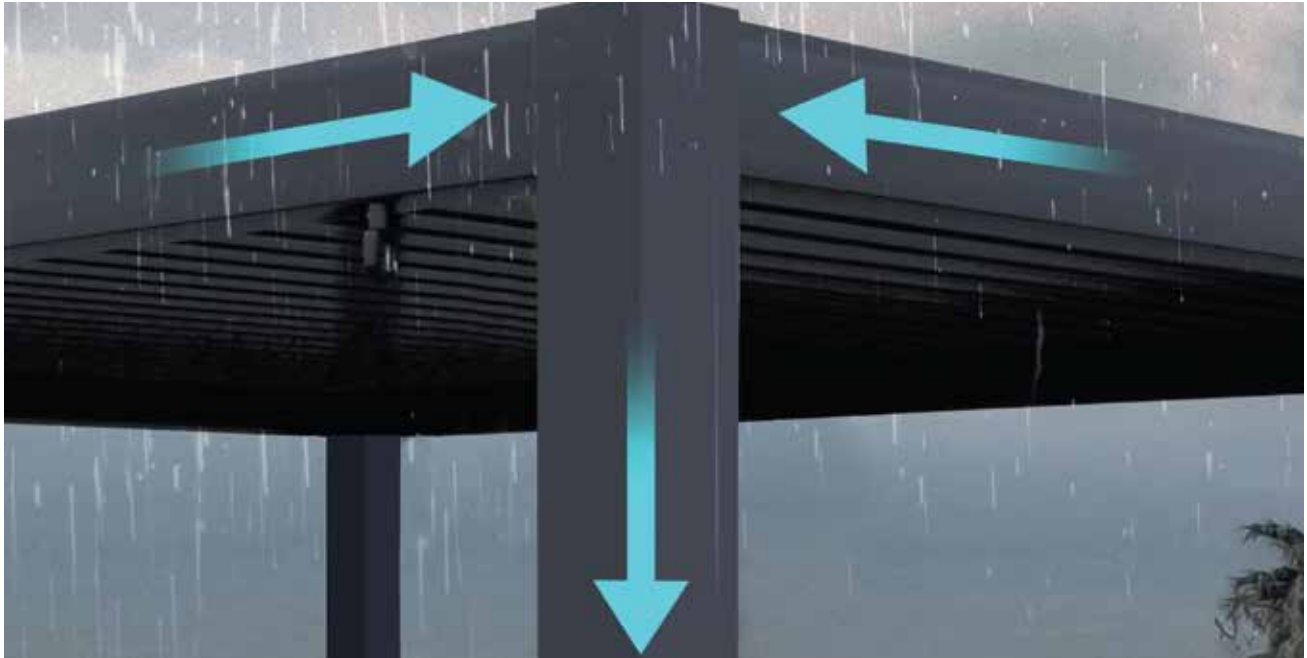

Key Features:

- Water-tight when closed
- Rotate the louvers for ventilation and the perfect balance of light and shade as the sun moves across the sky.

Rotating louvers feature a water-tight seal when closed to prevent water from seeping through. Additionally, you can adjust the louvers to regulate ventilation and achieve an optimal balance of light and shade as the sun travels across the sky.

INTEGRATED GUTTER SYSTEM

Key Features:

- Unique gutter evacuation system provides a waterproof application and eliminates leaky connections and chalking.
- Front & back gutters collect water and efficiently drains down/away.

The unique gutter system ensures a waterproof application, eliminating leaks. Front and back gutters efficiently collect and drain water away.

- Extend your outdoor living season and adopt resort-style living.

Misting System

Experience ultimate relaxation with our misting systems. Keep cool on hot days and enjoy the comfort of your pergola under a refreshing mist.

Fan System

Our team will handle the internal wiring and provide a secure mounting beam for your fan. Fan installation not included.

Heaters

Shortwave IR is an ideal solution for patio heaters, as it provides the heat required without being affected by breezes.

Lighting

Our pergolas come with an accessory option for lighting, allowing you to enjoy your outdoor space for longer. Choose between our LED strip or esme spot lighting to illuminate your pergola.

Shutter Panels

Aluminum shutters offer security, regulating light, airflow, and temperature control for outdoor living spaces.

Slat Walls

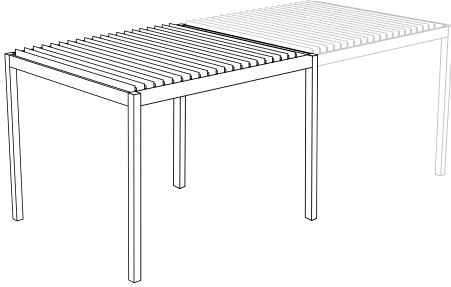

Crafted from high-quality aluminum, EuroShade slats offer a lasting solution for privacy screening.

Drop Screens

Crafted from high-quality aluminum, EuroShade slats offer a lasting solution for privacy screening.
