# FULL CASSETTE BOX

## Key Features:

- Protects the motor and fabric
- Available in 5 standard colors

When not in use, the full cassette head case shields the screen roll and motor from harsh weather conditions. The clean, enclosed design conceals all parts and gears, providing a sleek appearance while also safeguarding the motor inside the roll of fabric.

# ZIP GUIDED

## Key Features:

- Tight fabric appearance
- High wind tolerance

Zip guided screens use an interlocking zip system when lowering, creating a more efficient barrier against insects on both sides of the shade.

# VINYL CLEAR WINDOWS

## Motorized Key Features:

- Remote
- Convenience

## Manual Key Features:

- No electrician needed.
- Lower cost option.

\*Limited-use in temperatures below 50°. Vinyl windows are an ideal option for restaurants that offer outdoor seating. These windows help to block wind and provide protection from winter weather. (Vinyl panel max 50" x 100" - minimum border 6")

# OPERATION PARAMETERS

## OPERATION

The Customer understands that excessive and extraordinary weather conditions may cause damage to the product, the product may not perform optimally or may not function at all. Care should be taken at all times by the owner. Always retract the shading product when not in use. TDSC does not take any responsibility for personal, or property damage caused by weather or improper use and handling.

## OPERATION PARAMETERS

**SUN:** Vinyl screen shades are not intended for sunshade.

**RAIN:** Vinyl screen shades provide moisture protection and are recommended for enclosing spaces.

**WIND:** Wind capacity is 40 mph. High winds may damage the shade.

**SNOW:** While screen shades can help reduce snow intrusion, they are not designed to withstand accumulation.

**TEMPERATURE:** Do not operate the shade in temperatures below 50°F. *Motors may not work in temperatures below 14°F. Fabric is more brittle in colder conditions and thus subject to damage.*

**HAIL:** Hail damage is not covered by warranty.

**OBSTRUCTIONS:** Objects such as sticks, branches and debris may impede travel and can damage or stain the fabric. Always use caution.

\* The above weather conditions are manufacturer recommendations only.
