

ALUMINUM LOUVER - SUN & PRIVACY ROTATING LOUVERS

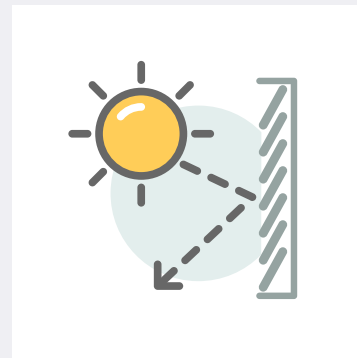

Privacy Block-Out

- Enhances privacy and blocks sunlight.
- Eliminates light gaps when fully closed.

Rotating Louver Panels

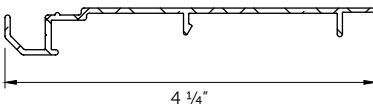

- Remote-controlled motorized louvers.
- Multiple color options available.

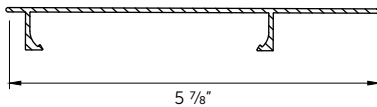

Energy Efficiency

- Block sunlight with adjustable angles.
- Enhance energy efficiency and control temperature.

Louver Length 107-E

Louver Length 150-E

Many Louver Color Options (optional custom powder coating)

⚡ Electrical - 120 Volt, 5 Amp

PRIVACY BLOCK-OUT

Key Features:

- Enhances privacy and blocks sunlight with a seamless rotating system.
- Eliminates light gaps when fully closed for optimal coverage.

Rotating louvers are perfect for enhancing privacy in your home or office. They effectively block out sunlight with a seamless, rotating system. When fully closed, they eliminate any light gaps for optimal coverage.

ROTATING LOUVER PANELS

Key Features:

- Remote-controlled motorized louvers made from high-grade extruded aluminum.
- Available in multiple color options to match any aesthetic.

The louver panels are motorized and can be effortlessly controlled via remote. Crafted from high-grade extruded aluminum, these louvers come in multiple color options to suit any aesthetic.

ENERGY EFFICIENCY

Key Features:

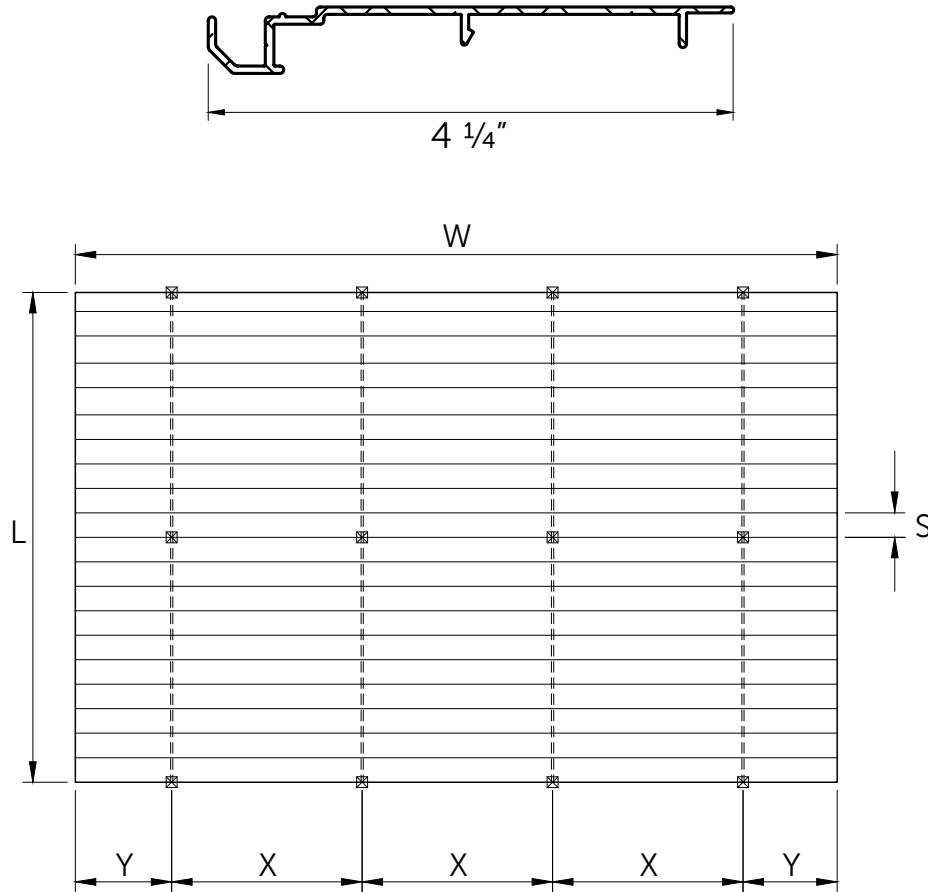

- Block sunlight and control light/airflow with adjustable angles from 0 to over 90 degrees.
- Improve energy efficiency and regulate temperature for a comfortable living environment.

Aluminum louver panels efficiently block sunlight while providing adjustable angles from 0 to over 90 degrees. They enhance energy efficiency and help regulate temperature, creating a more comfortable living environment.

SPECIFICATIONS - 107-E

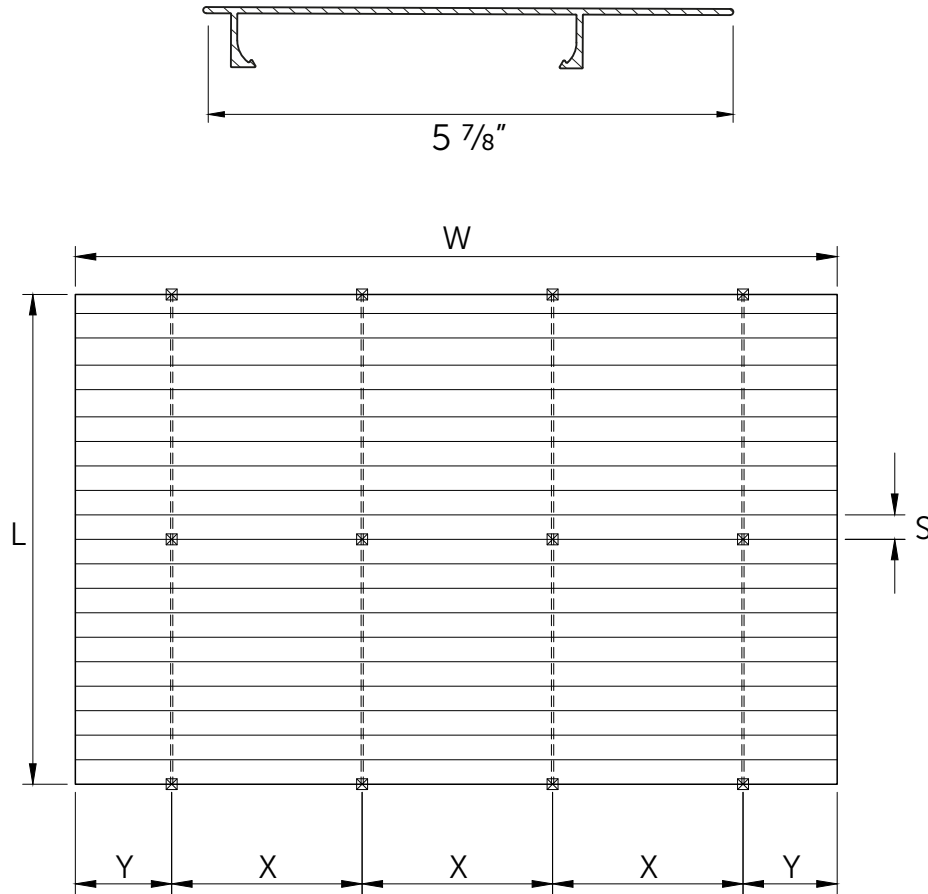

107-E Aluminum Louver

Property	General	
Louver type	107-E	
Size of louver	4 1/4"	
Thickness of louver	3/16"	
Movable	0° - 90°	
Louver distance/step (S)*	3 1/2"	
Maximum width (W)*	19' 8"	
Maximum drop/length (L)*	19' 8"	
	Interior	Exterior
Maximum rack arm distance (X)	4' 7"	4' 3"
Maximum side overhang (Y)	15 3/4"	11 13/16"
Support distance		
S 35 mm rack arm	5' 10"	4' 11"
S 80 mm rack arm	9' 10"	7' 10"
S 98 mm rack arm	13' 9"	11' 5"
* = the number of rack arms placed on top, or next to each other, is unlimited.		

SPECIFICATIONS - 150-E

150-E Aluminum Louver

Property	General	
Louver type	150-E	
Size of louver	$5 \frac{7}{8}"$	
Thickness of louver	$1 \frac{1}{16}"$	
Movable	$0^{\circ} - 105^{\circ}$	
Louver distance/step (S)*	$5 \frac{1}{2}"$	
Maximum width (W)*	19' 8"	
Maximum drop/length (L)*	19' 8"	
	Interior	Exterior
Maximum rack arm distance (X)	6' 6"	5' 10"
Maximum side overhang (Y)	$19 \frac{1}{16}"$	$15 \frac{3}{4}"$
Support distance		
S 65 mm rack arm	8' 2"	7' 4"
S 120 mm rack arm	16' 4"	13' 1"
* = the number of rack arms placed on top, or next to each other, is unlimited.
