Ⓜ Electrical - 120 Volt, 5 Amp

9 Standard Colors

Many Fabric Options

ZIPPERED FABRIC

Key Features:

- High wind tolerance
- No light gap
- Powder coating finishes

When not in use, the full cassette head case shields the screen roll and motor from harsh weather conditions. The clean, enclosed design conceals all parts and gears, providing a sleek appearance while also safeguarding the motor inside the roll of fabric.

SLEEK MODERN DESIGN

Key Features:

- Cutting-edge design blending innovation with timeless appeal
- Powder-coated hardware to match patio or pergola

Its hardware can be customized with powder coating to create a cohesive look that perfectly matches your patio or pergola. Embracing a cutting-edge aesthetic, the Pergola showcases a modern design that harmonizes with the latest architectural trends, blending innovative elements with timeless appeal.

UNOBSTRUCTED VIEW

Key Features:

- Support beam-free wide openings for an expansive view
- Unobstructed view creates a grand backyard atmosphere

The wide openings of the structure, devoid of any support beams, offer a spacious and unobstructed view, amplifying the visual expansiveness. This absence of obstacles creates a captivating and grand atmosphere in your backyard, elevating the overall aesthetic appeal to new heights.

OPERATION PARAMETERS

OPERATION

The Customer understands that excessive and extraordinary weather conditions may cause damage to the product, the product may not perform optimally or may not function at all. Care should be taken at all times by the owner. Always retract the shading product when not in use. TDSC does not take any responsibility for personal, or property damage caused by weather or improper use and handling.

OPERATION PARAMETERS

SUN: Patio Shades are only intended for sunshade

RAIN: Patio Shades are not intended for rain protection and should not be used in the rain.

WIND: Wind capacity is 40 mph. High winds may damage the shade.

SNOW: Patio Shades are not intended to block snow. Snow or extreme weather of any kind may damage the product. Patio shades should be retracted during all snowfall.

TEMPERATURE: *Do not operate the shade in temperatures below 32 degrees. Motors may not work in temperatures below 32 degrees. Fabric is more brittle in colder conditions and thus subject to damage.*

HAIL: Hail damage is not covered by warranty.

OBSTRUCTIONS: Objects such as sticks, branches and debris may impede travel and can damage or stain the fabric. Always use caution.

* The above weather conditions are manufacturer recommendations only.
