# WATERTIGHT DESIGN

## Key Features:

- Watertight glass panels prevent rainwater from leaking through, keeping your space dry.
- Designed for extreme weather and snow loads.

Fixed glass roof panels feature a watertight design that keeps rain out, ensuring a dry, protected space. Each panel is set in durable, weather-resistant aluminum frames for lasting strength and style.

# UV PROTECTION

## Key Features:

- Blocks harmful UV rays to protect furniture and reduce heat.
- Enhances comfort in all seasons, rain or shine.
- Shields your space while maintaining year-round usability.

Fixed glass roofs block harmful UV rays, reducing heat and glare for a comfortable space. They protect furniture from sun damage and provide year-round functionality, offering insulation in winter and enhanced comfort in summer. Durable and stylish, they enhance any patio or pergola.

# BRIGHT AND OPEN ATMOSPHERE

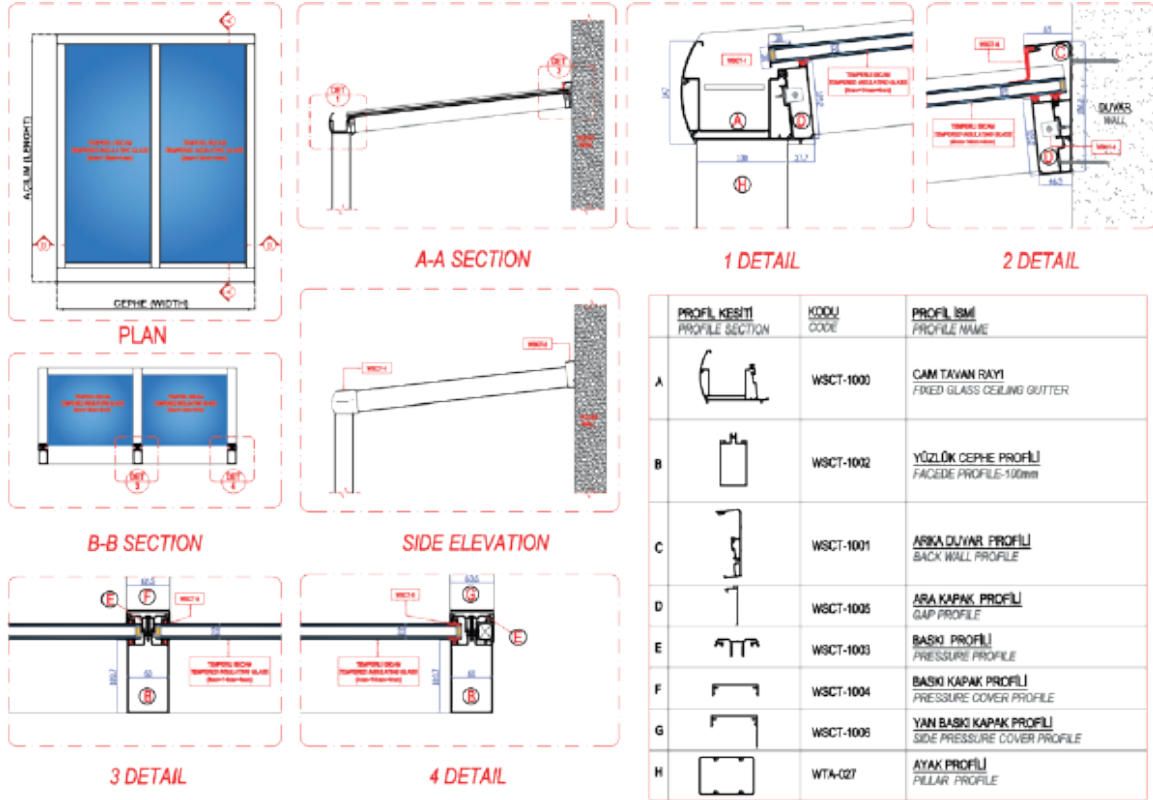

## Key Features:

- Fixed glass roofs let sunlight in, brightening spaces while keeping them protected from the elements.
- Perfect for homes or restaurants, they boost style and functionality, offering a great return on investment.

Fixed glass roofs brighten and open up spaces, letting sunlight pour in while providing protection from the elements. Perfect for both residential and restaurant settings, they offer an excellent return on investment by enhancing aesthetics and functionality.
